

Denial of Permission for Internet Access by Parent/Guardian

I have reviewed Board Policy EDE – 1, which describes the terms of student access to interconnected computer systems, computer equipment, computer programs, the Internet, electronic mail and other new technologies within the Pickerington Local School District.

As the parent of a student who is under the age of 18, I DO NOT wish the undersigned student to have access to the Internet via the School District’s computer network. By signing below, I understand and agree that the undersigned student:

- May be required to complete alternate assignments as a result of this denial of permission for Internet access;
- May still have access to interconnected computer systems, computer equipment, computer programs, electronic mail and other new technologies within the School District other than Internet;
- Will be obligated to comply with all remaining terms of Board Policy EDE – 1 (i.e., those that do not relate directly to Internet access).

I further understand and agree that while the School District will undertake reasonable measure to ensure that the undersigned student does not access the Internet via the School District’s computer network, it is not technologically feasible to guarantee that such access will be preventable under all circumstances. As such, I understand and agree that the ultimate responsibility for ensuring that the undersigned student does not access the Internet via the School District’s computer network is that of the parent/guardian and the undersigned student.
