Phase I & II of the Ridgeview Junior High School and Pickerington High School Central construction projects are complete.

**Ridgeview Junior High School** • Phase I entailed the renovation of the south wing of the school, including 25 classrooms and lockers along the south wing hallway. During the second phase of the project, 10 classrooms moved into swing space units as the main entry, west classrooms, band and locker areas were completed. The final phase was completed over Summer 2011 Break and included the general use spaces, including the Media Center, Gymnasiums, and Student Dining.

**Pickerington High School Central** • Phase I entailed the renovation of the 300’s wing of the school including 20 classrooms and lockers along the south, east and west hallways. During the second phase of the project, 6 classrooms moved in swing space units as the 400’s were completed. The final phase was completed over the Summer of 2011 Break and included the general use spaces including the Media Center, Gymnasiums, Student Dining, and Industrial Technology & Art spaces.
