Any student choosing to participate in the College Credit Plus program must submit this form to the school counseling office by April 1, notifying the school of the intent to participate in this program during the following school year.

Signatures on this form indicate that the parties involved have received information/counseling on the following topics:

1. Program eligibility
2. Process for granting academic credit, athletic eligibility
3. Financial arrangements for tuition, textbooks, and fees
4. Criteria for transportation
5. Available support services at the high school and college
6. Scheduling
7. Possible consequences and benefits of participation, including:
   - consequences of failing or not completing a course under the program
   - effect of the grade being included in the student’s GPA
   - benefits for successfully completing courses under the program,
8. Academic and social responsibilities of students and parents in this program
9. Information about and encouragement to use the college counseling services
10. Standard information about the program as developed by the Chancellor of the Ohio Board of Regents

Students may participate in College Credit Plus courses at any college or university where they are admitted, and these courses may take place on the college campus, in the high school, or on-line.

Students participating in College Credit Plus will be subject to the same rules and regulations as any other student enrolled in the college. The student will be expected to meet the same standards of performance as degree-seeking students of that college, and will receive college credit and transcripts for this coursework. Violations of academic honesty policy in College Credit Plus courses will be addressed under the policies of the college or university.

The college or university will provide an academic advisor for the student, and students will be eligible to use the services of the institution including, but not limited to, libraries, tutoring, or writing labs.

Students must apply for admission and follow all enrollment processes in order to be scheduled into a college class through College Credit Plus. For more information on College Credit Plus, please visit: www.ohiohighered.org/ccp

Pending acceptance by the college and successful placement into the course based on COMPASS, ACT/SAT, or other score result designated by the college, I intend to participate in College Credit Plus programming
