College Credit Plus

Informational Meeting
February 8, 2017

Pickerington High School North

Pickerington High School Central
Description of the Program

• The College Credit Plus program (CCP) offers qualified high school students access to directly transcripted credit through dual-credit.

• Students passing CCP classes will receive both high school and college credit for the course at no cost and without taking an exit exam.
Enrollment Options for CCP

- Students may enroll in college courses at their high school buildings, at local college campuses, or online.
- Classes may be taught by college faculty or Pickerington faculty with proper credentials.
High School Credit

- CCP classes will count for high school credit, with certain classes counting as replacements for courses required for graduation.
- Check the Registration Guide for specific courses (bit.do/courseguide)
Enrollment

• Students taking CCP classes through Pickerington will register for high school classes as normal, but must also:
  • Meet college enrollment requirements
    • 12 month legal resident of Ohio; Selective Service registration
  • Have provided qualifying ACT scores or take ACCUPLACER® prior to summer break
• Complete an accurate application to the college partner prior to the college’s deadline
Considerations

• Future plans (courses should further goals)
• Graduation (courses should not impede it)
• Scheduling (courses should blend into the day)
• Workload (courses should challenge, not distress)
• Transportation (courses must be accessible)
• Life (courses should not be sole focus of youth)
• Choice (courses should be student’s decision)
Transferability of Credit

• Successful completion of TAG/OTM coursework in the CCP program will earn students college credit that must be accepted by all of Ohio’s public universities and colleges, and is accepted by many private and out-of-state institutions.
Colleges vary, but credits go many places, like...

...Purdue University

...and a school “up north”
Benefits and Advantages

• Expanded educational opportunities
• College credit without taking an exam
• No cost to the student or families
• Full high school credit in half the time
• Credits weighted on 5.0 scale
Considerations in College Programming

Why would a student choose AP?

- *More time* to complete the course
- *More flexibility* in assessment and grading
- *More skill development* in college preparation
- *More familiarity* with teacher and process
- *Both* CCP and AP offer exceptional and rigorous courses beyond standard high school curriculum

*No single program is ideal for all – our students deserve opportunities as unique as they are!*
New Considerations

• These are *not* high school courses. They are true college courses following a different set of regulations regardless of where they are offered.

• Impact on GPA and class rank.

• Courses will mirror those given at the host college.

• College courses are more challenging and require an independent learner.

• No guarantee that all course requests can be scheduled and calendars vary.

• Failure or withdrawal from a course after 14 days require students to pay for those courses.
New Considerations

• College courses may have prerequisites.
• Grading is not based on equally-weighted nine weeks periods, but rather as the result of the complete semester.
• Interim and nine week grades are reported as “S” or “U”, with a passing grade marked as “S”.
• Students with IEP/504 plan must have their accommodations reviewed and approved by the college partner’s Office of Disability Services for services to be offered locally.
• Parents should expect as much contact with local college instructors as when their students graduate and leave for college.
Consequences of Failing

• May become ineligible to participate in extra-curricular student activities and/or athletics
• May fail to meet graduation requirements in a timely manner
• May incur financial obligations for the cost of the failed college course
Scheduling

• No graduation requirement may be waived as a result of participating in the CCP program.
• Scheduling conflicts are not the responsibility of the school district. Course times cannot be altered to accommodate a student.
• The time and location of CCP availability are determined by availability of credentialed faculty and cannot be altered to accommodate individual requests.
Scheduling

• Students are responsible for making sure they can get to all classes on time if courses are offered at a location outside of the student’s home campus.

• *Course schedules may not overlap.* Student schedules must allow for full attendance to all scheduled classes. Students may be removed from high school options if overlap occurs.

• College decisions regarding admission and participation in the CCP program are final and not subject to PLSD policies.
Athletic Eligibility

- Students must have five passing credits during OHSAA timeframes to be eligible for sports.
- Each 3 or more college credit CCP course counts as *two* eligible high school credits. A 2 credit courses counts as *one* eligible credit.
- Local CCP courses will report on athletic eligibility automatically; students taking courses on campuses or online must request grades from their instructors.
Equivalency of College and High School Credits

• College courses yield high school credit in the appropriate subject area or as electives if no high school content area exists

<table>
<thead>
<tr>
<th>Course College Credits</th>
<th>High School Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 or more credits</td>
<td>1 high school credit</td>
</tr>
<tr>
<td>2 credit</td>
<td>0.67 high school credits</td>
</tr>
<tr>
<td>1 credit</td>
<td>0.33 high school credits</td>
</tr>
</tbody>
</table>
Cap on Credit Availability

• The maximum academic credits available under CCP per year is 30.
• College credits in excess of 30 are the financial responsibility of the student and will not count as PLSD credits on the student’s PLSD transcript.
• “Credits” apply to any class in which a student is a participant, regardless of setting. Example:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Awarded</th>
<th>CCP Credits Used</th>
</tr>
</thead>
<tbody>
<tr>
<td>CCP Composition I</td>
<td>3 college credits</td>
<td>3 CCP credits</td>
</tr>
<tr>
<td>AP Biology</td>
<td>1 high school credit</td>
<td>3 CCP credits</td>
</tr>
<tr>
<td>Economics</td>
<td>.5 high school credit</td>
<td>1.5 CCP credits</td>
</tr>
<tr>
<td>CCP Precalculus</td>
<td>5 college credits</td>
<td>5 CCP credits</td>
</tr>
</tbody>
</table>
Student Responsibilities

• Apply and be accepted by the partnering college and complete relevant documents
• Meet all requirements for college courses
• Obtain travel arrangements as needed
• Maintain contact with school counselor each semester to ensure graduation is on track
• Keep informed about high school activities
• Return textbooks when courses are completed
Signing Up

For CCP courses at PHSN and PHSC

• Register on Infinite Campus for the course (check the Program of Studies for requirements)
• Ensure contact information on IC is correct and watch for individualized information for guidance through the process.
• Students will receive letters in homeroom; parents will receive emails.
• To receive program updates via text: Text the message @pickccp to the number 81010
To
81010

Message
@pickcccp
Signing Up

For CCP courses online or on a campus

- Apply to the college offering the courses.
- Review our partner information at http://bit.do/ccppartners
- Ensure that an intent to participate form is submitted to the district prior to April 1st.
- Students are responsible for coordination of college application and registration and communication with the district
- Students must have the district representative approve any non-PLSD programming in advance for such courses to be funded
Thanks to our on-site higher education partners...

...and local partners featuring programs on their campuses
Thank you for attending!
