

NEW IMMUNIZATION REQUIREMENTS
FOR STUDENTS ENTERING 12TH GRADE IN 2018-2019

Dear Parents of Current 11th Grade Students:

Per the Ohio Department of Health, all 12th graders must show documentation of having received **2 DOSES of Meningococcal (MCV4)** immunization before being allowed to enter school next year. This is a new requirement for this age group. The second dose must be administered after the 16th birthday. If the 1st dose of MCV4 was administered on or after the 16th birthday, a 2nd dose is not required.

You may take this letter with you to your doctor to use as documentation of these vaccinations, or you may submit an immunization report with the dates of both vaccinations. Please return this documentation as soon as possible to your child's school nurse. If this is not provided during the 11th grade school year, you will need to provide this at Welcome Days before the 2018/19 school year at your child's school. **Your child must provide proof of the MCV4 immunization prior to your child receiving his or her 2018-19 school schedule.** Please call your school's School Nurse or our School Health Supervisor with any questions:
