EMPLOYEE KIOSK

USER GUIDE

WHAT IS IT AND HOW WILL IT ASSIST ME?

The employee kiosk is a software program which has been developed and maintained by the same software creators that provide the state-supported payroll and accounting software used by the majority of school districts throughout the state of Ohio. Since the same group developed both software programs, the employee kiosk and the payroll processing software “interface”, thus allowing employees on-demand access to viewing and printing pay records, managing and verifying leave balances, as well as accessing a variety of other Payroll related forms and links.

WHY AM I BEING ASKED TO REGISTER FOR, LOG ON TO, AND USE THE EMPLOYEE KIOSK?

Once you have registered and logged onto the kiosk, you will have immediate access to not only your pay stub information, but also to a variety of other frequently requested payroll information.

In addition to paystubs, employees can also review detailed information about their contract amount, daily/hourly rate, per-pay amount, number of contracted work days per year, current leave usage and paid time off leave balances.

BENEFITS OF KIOSK

- ❖ Since all your pay stubs are available for on-demand viewing and printing through the kiosk, you no longer need to save and file your paper pay stubs or save your email direct deposit notifications. In the event you should need a copy of your previous paystub, just log on to the kiosk and print the range of dates you need.
- ❖ Through the employee kiosk, employees can view and print **EVERY** paystub, whether you received a direct deposit notification or an actual check, received dating back to May 20, 2013.
- ❖ In addition to viewing your current paid time off balances (sick and personal leave and vacation leave, as applicable), you can actually review the specific dates that have already been posted against your paid time off balances. This will be very beneficial when you are trying to determine how much time you still have available for use.
- ❖ **Forms and Links!!!** ~ Our goal is to have the most commonly requested Payroll forms and links readily available and all in one easily accessible place. Becoming familiar with the kiosk and forms available conveniently allows you to access information from anywhere at any time 24/7 provided you have access to an internet connection.
