

IMMUNIZATION REQUIREMENTS FOR STUDENTS ENTERING 12TH GRADE 2022-2023

Dear Parents of 2022-2023 Seniors,

Per the Ohio Department of Health, all 12th graders must show documentation of having received **2 DOSES of Meningococcal (MCV4)** immunization before being allowed to enter school in the Fall (2022). **One dose must be administered after the 16th birthday.** If the 1st dose of MCV4 was administered on or after the 16th birthday, a 2nd dose is not required.

If documentation has not been provided during the 11th grade school year, documentation of the required immunization will need to be provided at Welcome Days prior to your child receiving his or her school schedule.

You may take this letter with you to your doctor to use as documentation of these vaccinations, or you may submit an immunization report with the dates of both vaccinations. Please return documentation as soon as possible to your child's School Nurse. If you have any questions, please contact the School Nurse.
